

How to use Adobe Digital Editions with your eReader

- 1) When you are in your **Adobe** bookshelf, click on the cover of the book and drag it to the eReader. This will add the book to your device
- 2) Make sure not to disconnect your device until after the transfer is completed

- 3) To return an item early in Adobe, right click on the cover in Adobe Digital Editions and select "Returned Borrowed Item". Once that is done, select "remove from library".
